

A partnership project of Evertek & TCA

Rural Paullina - We're Bringing You FIBER Internet!

March 20, 2024

Dear Potential Evertek/TCA customer,

We're writing with very good news. As you may know, Evertek & The Community Agency (TCA) is building a fiber Internet network to the rural customers of Paullina. It will deliver unlimited and ultra-fast Internet, TV and phone services. We would love the opportunity to serve you when the project is complete, so please read below about next steps you can take today.

This project is a partnership between Evertek and TCA. We applied for and received funding for part of this project from the State of Iowa Broadband Grant program.

The **first and most important step you can take now is to complete the online Permission to Bury form.** You may complete the form online (using the link below) or use the paper form included with this letter.

- There is no cost to you for us to bring you fiber if you let us know before construction starts.
- Please complete the Permission to Bury form that can be found at **www.evertek.net/paullina**
- Completing the form doesn't obligate you to take service, but we know that most will want fiber Internet.
- If you don't complete the Permission to Bury form at this time and want fiber services later, there will be a fee of at least \$1,500 to bring fiber to your home.
- A product pricing sheet & the Permission to Bury form are included with the letter, but they may also be found on our website at **www.evertek.net/paullina**

We expect construction to begin during the spring & summer of 2024. We will update you about the project by email, so be sure to provide your best email address on the form.

Funding for this project has come from the Iowa Broadband Grant Program. If you have immediate questions, please call us at 712-834-2255, so we can answer your questions. Fiber Internet is what everyone needs, and only about 50% of Iowa customers have it. We are happy to be bringing it to you.

Thanks for giving us the chance to serve you with fiber Internet. Please visit www.evertek.net/paullina to review the info there, and complete the online Permission to Bury form or return the enclosed version.

Sincerely,
The Evertek & TCA Team
